

INFORMATIONS ABOUT PROJECT	
Project title	Regional business register
Sector	economy
Location	Sarajevo
Project status	In preparation
Project description	<p>The Regional Business Register, as one of the subprojects of the Regional Market, Investments and Statistics Forum - TIS, should combine all available data from the region, both statistical and administrative, into a complete solution suitable for different types of users. Four segments of the register are presented: a register of business entities, indicators, regional experts and regional projects. Project goals are highlighted through the importance of continuous data acquisition, development and maintenance of the platform as a synergy between developed and existing tools with data in real-time, and expert support for analysis and studys creation.</p>
