|-----------------------------------|---|
| Project title | “Production of dried boletus and fruits” |
| Sector | Agriculture |
| Location | Municipality Srebrenica; Bosnia and Herzegovina |
| Project status | Start-up |
| Project description | The municipality of Srebrenica is situated at an altitude of 476 meters, with an area of 527 square kilometers, this is a hilly mountainous ranges along by the river Drina, which of 63% belongs to the forests where the growth of wild mushrooms and other wild eatable mushrooms, about 120 tons per season. Swedish KRAV Institute for organic foods certified the municipality of Srebrenica area as a region that is suitable for the production of ecologically healthy food from other areas in Bosnia and Herzegovina. After the analysis of natural resources in the municipality of Srebrenica, based on research and results, according to the yields of mushrooms, fruits and berries in recent years, OPZ Drinaplod Srebrenica is focused on the collection and processing of mushrooms, fruits and berries. Our primary products will be dried, fresh and frozen mushrooms (porcini, chanterelle, morel and black trumpet, etc.) dried and processed fresh fruit (plums, apples, pears, walnuts, hazelnuts, etc.), as well as dried and fresh frozen forest fruits (wild raspberry, wild strawberry, rose hip, blueberry). According to the indicators of the market there is a deficit of product mushrooms that we have in the amounts and in addition to other processors can not meet the needs of demand of market. The real possibilities of processing of mushrooms and fruits require long-term investment in the amount of 809,233.20 €, a return on investment within the first year of operations with a net profit of 476,322.10 €. The project will provide employment for 20 permanent and 20 seasonal workers, contribute to the development of the community, especially for the population in rural areas of the municipality. |
| Estimated total cost | 809.233,20 € |
